There are many reasons to give back to your community, and help make medical care more accessible to families in need. Here are some great reasons why giving stock is a successful financial planning strategy:

- Share your financial success with those less fortunate
- Become part of a legacy by donating to a worthy non-profit
- Optimize your charitable giving and realize notable tax advantages. Neither the charity nor the donor pay a capital gains tax on appreciate stock; however, the donor can deduct the full value of appreciate stock.

We are open to any kind of stock gift you would like to donate! Additionally, we are actively seeking the following positions:

- AMAZON
- APPLE
- NETFLIX
- AMGEN
- ACTIVISION
- DISNEY
- CON EDISON
- MATTEL
- GOOGLE
- MICROSOFT
- EXXON
- STARBUCKS
- BIOGEN
- S&P 500
- COCA COLA
- CBS
- FACEBOOK
- HP
- BROADCOM
- FIRST SOLAR
- J&J
- GE
- BERKSHIRE
- WELLS FARGO

If you have questions about how you can give the gift of stock, please refer to the steps outlined in the two scenarios below:

**YOU HAVE A FINANCIAL ADVISOR**

**Step 1.** Ask your advisor if you have any “missing basis” stock. These are positions where you do not have a record of the cost of the stock. If you were to sell these securities, you will pay capital gains tax on the entire value. By donating these shares you avoid this high level of taxation.

**Step 2.** Ask your advisor to send you a list of your stocks held greater than one year, according the highest percentage gainers.

**Step 3.** Determine the value of your contribution and identify the securities to be transferred.

**YOU MANAGE YOUR OWN ACCOUNT**

**Step 1.** Review your portfolio for missing basis stock. These are positions where you do not have a record of the cost of the stock. If you were to sell these securities, you will pay capital gains tax on the entire value. By donating these shares you avoid this high level of taxation.

**Step 2.** Sort your account according the highest percentage gainers. Log in to your account and go to your “holdings” or “positions” page. There should be a column for the % gain-loss of each position.

**Step 3.** Determine the value of your contribution and select the securities to be transferred.
